Hydra 29th March 1827

My Dear Lord

enclosed is the calculation in Turkish Piastres for 1000 men, those of Spezzia & Ipsara will be at the same rate - This is all that can be done until the money arrives – until it makes its appearance the captains will not make a single step in the way of preparation, so that the sooner it comes the better. There is a report here, which I hope in God may be true, that the steamboats are arrived at Napoli di Romania.

I remain
your Lordship's
very obliged & sincere servant
Cl. Gordon Urquhart
