

My Dear Lord

I hope to succeed in tranquilizing the soldiers. As soon as I have arranged for the garrison of the Phalerum I got up a working Party (like I said) which I am now arranging. I will visit the troops. but until that is the case, I must do more harm than good as it is probable that they might insist upon going away & embark if they had me as a hostage for their immediate embarkation. I am establishing from ydepees & if I succeed from the Phalerum I will myself cover the embarkation of the others at the end of the three days in your care.

R. Church

This idea if I walk muerto today I am sure of being laid off commission.
