

Poros 13 August

Gentlemen,

Having promised that out of the first monies that should come into my hands, the gentlemen who so liberally equipped the last expedition should be repaid I have commissioned Mr. Keering to receive from you the 20000 dollars raised at Syra in order that the said demands may be liquidated, should the individuals to whom I made the promise of repayment judge fit that it should be now so applied instead of to the equipment of another expedition.
