Egine Nov 8: 1828

My dear Lord

The committee here have looked over the accounts of Dr Gosse, and now say that both the presence of Dr. Gosse and Mr Keering are requisite to give explanations regarding them. I have written thus in haste with the hope that you will receive this note before you quit Napolie, to be able [1] to bring them both away with you, for their presence here will take away all pretext.

I would recommend your Lordship to call at Hydra on your return for Mr Pappadopoulo, and if not there to proceed where they say he is, and bring him away with you by all means, otherwise your acts will never be finished.

Believe me ever to remain my dear Lord Ever

Most Sincerety I devotedly your

the Rt Honorable G. P. Cochrane

Lord Cochrane [2]

N. B. I have not sealed the letter, for fear of any fine or delay being put on the bearer for I believe he goes by the letter boat - and as Demetrie cannot understand English it is the same as though it were sealed.
