Leghorn 1 March 1830

My Lord

I received your Lordships letter of the 16 ultimo and I am extremely sorry to learn that Lady Cochrane has been so much indesposed. I ardently wish that the hopes which you now entertain of her recovery may be realized and that the may soon berestored to perfect health.

From what you say of Fishers Blant I much fear that the dozen received from the Baron De Cazes no be still of weaken body being of so remote a vintage as that of 1815-. If so I beg your Lordship may on it back to me or of there be any difficulty about that I will give instructions to some person to receive it.

I shall cause Thomson of the St Mario to send up a bottle of his claret list his should be of superior quality to the other two paints and if so any quantity you may wish for will be sent up.

Lord Lyndoch merely wished to receive your opinion of Stevenson and to save time he requested your Lordship might write to him at Pisa adding that you and he were personaly acquainted.

I have the honour to be your Lordship, most obedient

M Marbian

To the Right Honorable Lord Cochran
