History of the Geeek Revolution - By Tho. Gordon

Excerpt from a Review of the above work in the h. of Dec. 21, 1832.
The valour and endurance of te insurgents are physical qualities we may admire, but their miserable selfishness, their contracted notions of patriotism, their treacherous, intriguing dispositions, their utter want of moral principle, excite a disgust and loathing in our minds similer to that which drove Lord Cochrane from their shores, and which, in the course of the contest, revolted the feelings of their best friends.
